Korean	Basic

Lived overseas for 6 years in pursuit of greater knowledge and to obtain an International Business degree. Now, a Software Engineer who enjoys solving problems.

Projects

Socialbook | (React/Redux, Rails 5, SASS, Postgres, AWS, Heroku) - An app inspired by Facebook

- Managed user authentication through BCrypt by encrypting and hashing incoming passwords.
- Utilized SQL join tables in order to obtain a user and friend posts for newsfeed.
- Maintained limited AJAX request and onload efficiency by slicing information and saving it to appropriate location in the Redux store.
- Implemented efficient image upload to the cloud using AWS, increasing app scalability.

Saviors | (HTML5, CSS, JavaScript) - Game based on Aero Fighters

- Applied HTML5 canvas API to render and maintain game framerate at 60fps.
- Maintained efficiency by implementing multiple canvas screens which separate loading and refresh time for Enemy, Ship and Background.
- Created animation effect for in-game ship movement with a chronometer that refreshes at 2fps.
- Implemented sprites for an exceptional user experience and event handlers for user interaction with the game.

DomQuery | (JavaScript) - A lightweight DOM manipulation inspired by jQuery

- Executed native DOM API which managed core manipulation of the DOM elements and event handling.

Experience

Wedding Videographer (Jun 2016 - Dec 2016)

Don Karpov

- Coordinated scheduling for onsite preparation for the church and venues.
- Ensured equipment was in top condition before each wedding event.
- Produced short videos for clients regarding memorable events occurring in their wedding.

English Language Instructor (Jun 2013 - Jun 2014)

NES Language Schools

- Instructed CEOs and COOs from world-renowned Japanese companies in business-level English.
- Taught students various aspects of Western business etiquette as it pertains to professional interactions in the United States.

Foreign Agricultural Service Intern (Nov 2011 - May 2012)

Embassy of the United State of America, Agricultural Trade Office, Tokyo, Japan

- Assisted with the development and implementation of marketing strategies aimed at improving business conditions for U.S. agricultural companies in Japanese markets.
- Supported the U.S. Embassy at major international trade shows to promote American agriculture in Japan including the Supermarket Trade Show and FOODEX.

Education

App-Academy - 2017 1000-hour full stack web development program with <2% acceptance rate

Temple University Japan Campus - 2014 BS International Business
